## Interests

- **Creative Content Writing**

I, as a person who keeps journals, write short stories and poems, like to come up with creative contents about the topics that pick my interest or things that I am trying to learn.

\$ You can read my articles about technology and development in: [fairydevmother.substack.com](https://fairydevmother.substack.com)

- **Oil Painting/Art**

I started to paint on canvases when I was 12 because I was impressed with Van Gogh's art works. His post impressionist works gave me inspiration to create.

- **Violin**

I picked up the violin a little late. But now when I need to focus or better yet when I need to solve a problem, I start to play and it helps me see things from a different perspective.
